

Are you an immigrant or refugee woman?

We want to hear your story

Violence Against Women Migrants and Refugees: Analyzing Causes and Effective Policy Response

We are interviewing migrant and refugee women across Canada on the theme of violence against women. We want to learn about your migratory journey and your settlement experience here in Canada. By sharing stories with us, we hope to better understand experiences of violence against women, the strategies women employ to prevent violence and deal with its impacts, and how services that support migrant and refugee women can be improved.

The interview will last about one to two hours. We can provide the services of an interpreter. To help defray any costs you may incur by participating in this interview we will compensate you with \$30. Your participation in this research is entirely voluntary. Your safety and confidentiality are important to us and we will work with you to ensure your privacy and security.

For more information or if you would like to participate in this project please contact:
